This would be a place on the St.Ambrose Website where you could go to find books that are either more advanced, or you just want a book to read in your free time.

Which book should I pick?

These books can be submitted to the person who would like to take charge by all ages and grade levels.

This is something that will allow students to grow not only in their knowledge of particular subjects, but also in their love for it. If a student has a problem, or does not understand something, they can ask any of the students who would like to volunteer for this program.

Being a new activity, competition would most likely be omitted. The books would therefore be chosen by Mrs. Healy.

Bill ideas: "How to make Saint Ambrose a better place."

Student Tutoring

Battle of the Books for Older Grades

Would operate the same way as 5-6 with the difference being would read books for older grade levels. Career Practice

Teachers, parents, or other known beople may volunteer in this program to further assist many things such as particular subjects or public speaking as well as time management

This will be a place where you can practice skills you will need for various jobs you might want to persue in the future (ex: if math is needed you may practice and perfect some of your math skills)
