

## Summer Math Packets for Rising 5<sup>th</sup> Graders

Dear Students and Parents,

Attached is the summer math packet. It is important that students complete the packet to reinforce concepts they learned during the school year with me. Rising 5<sup>th</sup> graders also need to have mastered multiplication and division facts up through 12. Practicing these skills will prepare them for next year.

The math packet will be collected during the first week of school and graded for completion, showing their work, and effort. Do your best! Enjoy your summer!

Warmly,

Jennifer Charest
